Fearfully & Wonderfully Made

There are about 5 million hair follicles on the adult human body and men have a few hundred thousand more than women. Hypertrichosis is excessive hair growth over and above the normal for the age, sex and race of an individual. This form is most responsible for the term "werewolf syndrome."

Gen 25:24- 25

So when her days were fulfilled for her to give birth, indeed there were twins in her womb. And the first came out red. He was like a hairy garment all over; so they called his name Esau.

Gen 27:11, 16, 22-23

And Jacob said to Rebekah his mother, "Look, Esau my brother is a hairy man, and I am a smooth-skinned man

And she put the skins of the kids of the goats on his hands and on the smooth part of his neck. So Jacob went near to Isaac his father, and he felt him and said, "The voice is Jacob's voice, but the hands are the hands of Esau." And he did not recognize him, because his hands were hairy like his brother Esau's hands; so he blessed him.

*Please note the service is recorded and streamed live during the Divine Service programme.
